

## STRENGTHS

What do you love and want to preserve/protect

The water! Water is life!

Vision in the town for healthy environment for future generations to enjoy.

All waterways are connected - to all species.  
Their health is our health.

The natural spaces: clean lakes/ponds.

## OPPORTUNITIES

What could be created or enhanced to address emerging goals/needs?

Townwide sewerage x2

People communicating + working together!

Coalition across citizen, gov't, Tribal leaders and members

## WEAKNESSES

What do you dislike or think needs improvement

More action, less division

More cooperation

Water health needs to be connected to the entire plan.

## CONCERNS

What are emerging issues that we need to monitor/address immediately?

Degradation in water quality ✓

Divisive approach to different communities or waterways. All connected.

# YOUR VISION

WRITE A HOPEFUL MESSAGE. "IN 10 YEARS,

MASHPEE."

EX. IS A LEADER IN COMMUNITY RESILIENCE.

"CLEAN WATER + HEALTHY PONDS!" ✓

"WINS NATIONAL RECOGNITION FOR WATER PRESERVATION PLAN"

"Mashpee healthiest environment to live in, in all of USA!"

"ROLE MODEL OF A COOPERATIVE COMMUNITY - MASHPEE"

"Mashpee will be a prototype of collaboration among communities. Tribal entities to take a holistic and effective approach to protecting healthy water."

"Will have a fully functioning public sewer system."
